

## NFHS Streaming Information

Our new National Federation of High Schools pixilate automated streaming system has been installed. All games played in Tiger Arena will be streamed on this system. We will have the same system installed out on our football field in the spring so it's ready for the fall of 2022.

The service does charge a fee to the user, either monthly (\$11.99) or yearly (\$69.99). The subscription will allow the user to have unlimited usage to watch any game/sport/school/level that is on the NFHS network. A percentage of this fee does come back to Nevis Schools. This system was free to install and will sync with our schedules and take us another step up in quality of production.

1. Click the NFHS link on the Activities & Athletics page.
2. Scroll down and you should see the game you want... click it. It will ask you to subscribe, simply follow the prompts.
  - a. **Monthly** subscription: allows you access to as many games as you want for a month, you must cancel or it will auto-renew. You can cancel anytime.
  - b. **Yearly** subscription: allows you unlimited access for a year. This will also auto-renew but you can cancel at any time.

Note: If it is not game time there will be a countdown clock. We have adjusted stream start times to begin during normal warm-up times.

Some of our neighboring schools with this same system include Park Rapids, Wadena, Bertha Hewitt, Verndale and Brainerd.
